The Right Honorable Justin Trudeau

July 27, 2016

Prime Minister:

On December 16/12/2015 I requested in writing to meet with you regarding the urgent issues regarding the "Child Welfare System". I received a response on May 16, 2015 from one of your volunteers John L Ausman. This response was one of my biggest disappointments. It did not answer my concern about Canadian children.

Today, I write once more on behalf of Protecting Canadian Children. This is a request requiring an answer. By way of action on your part will you demonstrate that you understand the seriousness and urgency of action. The citizenry has been betrayed by those who allowing innocent children to die under the privatized Child Care Services which has been given funding and unlimited power without our consent.

This is in defiance of our constitution and an act of treason within the borders of Canada!

Mr. Trudeau we are giving you an opportunity to make an effort to right the wrongs committed against children and families. Will you be the Prime Minister the people would be proud of? Be the first Prime Minister to have the courage and the backbone to stand up for what is clearly the only right thing to do. Be the first Prime Minister to stand up and say NO to child abuse and to the New World Order. Be the Superman your children see you to be.

I am looking forward to your response and to meet with you to discuss the destiny and future of our children in care.

From Tragedy to Hope

Alfredine (Linda) Plourde

Protecting the most vulnerable is "every citizen's" duty
